WORKSHOP DESCRIPTION

Day One (March 8, 2017)

LA-SBIRT (Screening, Brief Intervention, and Referral to Treatment) is sponsored by the LSU School of Social Work's LA-SBIRT Program. SBIRT is a comprehensive, integrated, -public health approach to the delivery of early intervention and treatment services for persons with substance use disorders, as well as those who are at risk of developing these disorders. Primary care centers, hospital emergency rooms, trauma centers, and other community settings provide opportunities for the early intervention with at-risk substance users before more severe consequences occur. An estimated 20% of the general population is considered at risk because of harmful substance use patterns, and it is this group of individuals that is targeted by LA-SBIRT. SBIRT is a brief, validated, universal screening tool. SBIRT services are reimbursable by Medicaid in Louisiana. LA-SBIRT Program is funded by the Center for Substance Abuse Treatment (T1026017). A luncheon presentation is by Dr. Janice Petersen, Deputy Assistant Secretary, Office of Behavioral Health.

Day Two (March 9, 2017)

This day of workshops includes a keynote presentation by the representative of the Department of Children and Family Services (TBA) discussing the impact of the opioid epidemic on public child welfare in Louisiana. It is followed by a panel discussion of the public well-being impact of the opioid crisis. The panel is moderated by Dr. Sheila Webb (EXCELth) presenting on the beginnings of the epidemic and panelists include Dr. Jeffrey Rouse (NO Coroner's Office), Dr. Joseph Kanter (NO Health Department), Dr. Rochelle Head-Dunham (Metropolitan Human Services District), and Judge Ernestine Gray (NO Juvenile Court). The luncheon speakers include Narquis Barak from the National HIV Behavioral Surveillance Program (NO/AIDS Task Force) who will present on the relationship between substance use (opioids) and HIV risk. Afternoon choice of workshops include Dr. Joseph Wegmann (pain management and opioids); Mia Kacmarcik, (medically assisted treatments—Daughters of Charity); Pat Toledano-Thompson (DCFS consultant) and Dr. Gail Wise (SUNO) on practice interventions; Dr. Deidre Hayes (Motivational Interviewing); Dr. Rebecca Chaisson (SUNO) on Cognitive-Behavioral Therapies; and Aaron Clark Rizio (LA Advocacy Center for Children's Rights) on Juvenile Justice.

Lunch is provided both days and CEUs are provided by SUNO School of Social Work's CRC.

WORKSHOP OBJECTIVES

A note on CEUs for Social Workers:

Objectives of presentations for general social work CEUs:

- Participants learn about the psychosocial impact of opioids on diverse populations
- Participants learn about policies and services impacting behavioral health and child welfare
- Participants learn about the health, behavioral health, and child welfare issues with opioid use

Objectives for presentations for clinical social work CEUs:

- Participants learn how to engage opioid users in clinical care
- Participants learn how to assess opioid user's biopsychosocial needs
- Participants learn evidence-based interventions for opioid using persons

About the CRC: The Community Resource Center, established in 1989, serves as a vital mechanism for making real the themes of the School of Social Work: Advocacy, Empowerment, and Transformation. It brings to the social work community workshops, conferences, and certification that will enhance one's professional social work career.
